Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The amendment filed on 9/09/04 has been fully considered and made of record.

Specification

2. The disclosure is objected to because of the following informalities: "... μm thick," (Cf. Amendment filed 9/9/04, page 2, line 7) should be "... nm thick,".

Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1, 2, 4-12, 18, 19 and 21-23 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the

claimed invention. The method step by: "... pulsed laser deposition ..." (Claim 1, line 4; claim 18, line 18) is a subject matter which was not disclosed in the application as filed. The examiner is at a loss to determine the step by pulsed laser deposition claimed in the invention.

Response to Arguments

5. Applicant's arguments filed 9/09/04 have been fully considered but they are not persuasive for the following reasons:

Applicant recites *inter alia*: "...pulsed laser deposition ..." (Claim 1, line 4; claim 18, line 18). The Examiner's position as stated in the preceding Action was and continues to be that since the Applicant's amended step by "pulsed laser deposition" is not properly described in the specification originally filed and raise doubt as to the possession of the amended, claimed invention at the time of filing. There is nothing either in the original specification which would show that now claimed "... pulsed laser deposition ..." is a correction of the language "... laser abrasion..." (E.g. Cf page 5, line 27) in the original specification. The change of language is anything but an obvious error (Cf. MPEP 2163.07 II).

Art Unit: 3729

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
